About

I'm a software engineer who values hard work and team dynamics. I specialize in front-end development with React, utilizing TypeScript. I'm a fast learner and eager to improve at all parts of the stack, including back-end development.

Skills

Languages	TypeScript, JavaScript, CSS, HTML.
Technologies	React, TailwindCSS, Redux, Git, REST API, Web3, Node.js, GraphQL.
Strengths/Interests	Crafting delightful user experiences with modern front-end frameworks and tools.

Experience

- May 2023 - Present **Software Developer**, AIRSWAP - www.airswap.io, Remote
- Core contributor and maintainer of the AirSwap Member Dashboard app, a UI which enables voters to stake tokens and claim rewards from a pool. [App](#). [GitHub](#).
 - Built new features and bug fixes to the AirSwap Web app, a decentralized exchange that has facilitated over \$3.68 billion in trading volume. [App](#). [GitHub](#).
 - Collaborated remotely with an international team, ensuring that features were shipped by deadlines.
 - Conducted rigorous code reviews for other developers on the team.
- Aug 2022 - June 2023 **Software Developer**, RAID GUILD - www.raidguild.org, Remote
- Upgraded WrapETH, a multi-chain interface designed for wrapping native assets via the Wrapped ETH smart contract. [App](#). [GitHub](#).
 - Contributed new components to the RaidGuild Design System, utilizing Storybook and Chakra-UI to create a themed component library. [GitHub](#).
 - Developed Kaching, a Web3 wallet interface, facilitating user sign-ins via Google or Discord using account abstraction. [App](#). [GitHub](#).
 - Led the front-end development for Rite of Moloch, an application enabling DAOs to monitor and engage new members, as well as allowing new members to express their commitment. [App](#). [GitHub](#).

Education

Completion: April 2022 **Full-stack Software Engineering program**, Flatiron School, Remote
BA in Exercise Science, Florida State University, Tallahassee, FL

Honors and Awards

- August 2022 **ETH Metabolism Hackathon**, IPFS Prize Winner
- IPFS prize winner for developing *Octave*, a music streaming platform allowing artists to mint songs as NFTs and advertisers to purchase ad slots during playback.

Other Experience

- Feb 2014 - Dec 2020 **Starr Conversions LLC**, New York, NY
- As the Marketing Director in a small, fast-paced startup, I managed and analyzed media campaigns using Facebook Ads and Google AdWords, while also directing operations for Shopify eCommerce stores, achieving over \$1 million in annual revenue.
